HydroPro 1PC

High level bust support with soft, removeable cups for modesty with the 360° Powermesh Bra Liner.

Designed for a smooth fit against the shoulders, the Comfort Straps ensure comfortable support.

Seam Placement designed with performance in mind, to balance flexibility for a streamlined swim.

Design Features

- Iridescent Sharkskin-inspired plastisol print
- Black rubberised Speedo branding

Available as Swimsuit and Kneesuit.

Female / Fitness

HydroPro Swimsuit 8-135066134 Black

Style: 838135066134
Price: \$ 799

HydroPro Swimsuit

This tech inspired, sleek Performance swimsuit is packed with technical innovations to help take your training to the next level. Striking in black with a graduated iridescent sharkskin motif print and high cut leg, the suit includes smooth-fit comfort straps and a highly supportive 360 Powermesh bra liner for comfort during tough workouts. A specially placed performance seam enhances the suit's streamlined shape, while anti-microbial technology ensures it stays fresh swim after swim. Designed to be durable and better for the environment, it's made from our new ECO Endurance+ fabric which is 100% chlorine resistant, quick-drying and made from 50% recycled materials.

Features

- Comfort straps - smooth fit against the shoulders, designed for comfortable support
- Performance Seam Placement - designed to balance flexibility with a streamlined swim
- 360 powermesh bra liner with removable cups - high level support with soft cups for modesty

Fabric Description: ECO Endurance® + Pro
Fabric Composition: 53% Recycled Polyester 47% Pbt Vf & Am Finish

Digital Placement Hydrasuit
8-11437G700 Black / Neon Orchid / Diva / True Navy

Style: 83811437G700
Price: \$ 699

NEW **ECO ENDURANCE⁺**
Digital Placement Hydrasuit

Streamlined swimwear. Make waves during your fitness training wearing our super-flattering Hydrasuit which features a high neckline and full back coverage for a sleek, streamlined silhouette. The purple graduated chevron print takes its cue from our Fastskin heritage, so you look the part in training. A comfy bust underband helps provide a supportive fit allowing you to focus on your performance, while the zip-up back includes an extended puller for easy changing. Designed to be durable and better for the environment, the suit features our new ECO Endurance⁺ fabric which is 100% chlorine resistant, quick-drying and made from 50% recycled materials.

Features

- Hydrasuit design - high chest and back coverage for a streamlined swim
- Zip back design - extended puller for ease when changing
- 100% chlorine resistance - for long lasting performance
- Quick dry - dries faster after your swim workout

Fabric Description: ECO Endurance⁺ +
Fabric Composition: 53% Recycled Polyester / 47% Pbt
Buys: 3
Available Sizes: 28, 30, 32, 34, 36, 38, 40, 42

Style: 83812523G701
Price: \$ 599

NEW **ECO ENDURANCE⁺**
Digital Placement Medalist

Streamlined, tech inspired aesthetics. Fly through your fitness training wearing our stylish navy and pink Medalist swimsuit, featuring a gradient print design and fluo orange texture-effect panelling. A Speedo favourite, our popular medalist style includes a medium neck and leg, plus a modest back for great shoulder movement and comfort during training. Light bust support via a comfy underband helps you feel secure and supported. Designed to be durable and better for the environment, the suit features our new ECO Endurance⁺ fabric which is 100% chlorine resistant, quick-drying and made from 50% recycled materials.

Features

- Medalist design - aids shoulder movement and flexibility, making this suit ideal for training
- 100% chlorine resistance - for long lasting performance
- Quick dry - dries faster after your swim workout

Fabric Description: ECO Endurance⁺ +

Fitness Backs Best for flexibility & security

Medalist

A much-loved style that's a kit bag essential! The Medalist's straps sit between your shoulders, which is great for movement and the modest back opening gives you flexibility without feeling too exposed.

Laneback

The Laneback is great for swimmers looking for both support and flexibility. The straps leave the shoulders open to enable movement, with a wider back opening than the Medalist. All Lanebacks feature a bust shelf liner, and some also have removable pads, to give extra reassurance during your swim.

Muscleback

The Muscleback gives swimmers similar shoulder flexibility to the Medalist and Laneback, but with increased coverage on the back. This is a great style for active swimmers who want a little more coverage.

Thinstrap Muscleback

The Thinstrap Muscleback has the same back coverage as the Muscleback style, but with thinner straps for those swimmers who want more flexibility and unrestricted shoulder movement.

Racerback

A Speedo classic, the Racerback offers full back coverage without getting in the way of your swim. Cut outs around the shoulder blades ensure shoulders can move comfortably. Some of our suits feature 360 bust support – our highest level of support – for security and comfort during your swim.

Flyback

The Flyback is a modern twist on the Racerback, with skinny Racerback straps. The fit keeps your shoulder blades unrestricted whilst the back opening is modest and provides just the right amount of coverage.

Fitness Backs Best for support

Zip Backs

Featuring a high neck and zip-up back, the Hydrasuit styles give a supported, streamlined swim, whilst a high cut leg ensures you can kick freely. The Hydrasuit features a bust shelf liner for medium bust support – for security and comfort during your swim.

Kickback

The Kickback features the iconic Medalist's straps which give your shoulders the same freedom of movement. But with a high back, gives increased coverage and provides a more secure bust support, combined with the internal bust shelf liner.

Clipback

The clip back fastening and adjustable straps of this style, combined with underbust seaming ensure that everything is held in place! Great for fitness classes in the water, as well as swimming.

Crossback

The Crossback's adjustable straps offer security in and out of the water, whilst removable pads give you the option of increased shaping and modesty. A great option for fitness classes in the water, as well as swimming.

Scoopback

The scoop design can be found on a number of our suits, and combined with adjustable straps offers a great combination of support and simplicity, whilst being easier to get in and out of! The Scoopback is available with underbust seaming, and removable pads – with many different styles to suit all body types. A great option for fitness classes in the water, as well as swimming.

HydroPro Jammer

For a comfortable, secure fit, the Performance Waistband is designed with an elasticated silicone gripper.

V-Cut panel design with rubberised liner for support and enhanced fit.

Ensure a custom fit and additional security with a flat drawstring which sits within a dedicated waistband channel.

Design Features

- Metallic Sharkskin-inspired plastisol print
- Reflective piping
- Black rubberised Speedo branding

Available in Jammer and Mid-Jammer Length.

Male / Fitness

ECO Endurance + Pro Jammer 8-134420001 Black

Style: 838134420001
Price: \$ 799

NEW ★ **12** **SIZE**

ECO Endurance + Pro Jammer

Performance swimwear. This tech inspired, sleek ECO Endurance+ Pro Jammer is packed with technical innovations that help take your training to the next level. Striking in black with a graduated iridescent sharkskin print, the jammer includes a silicone gripper waistband and a flat drawstring which sits within a dedicated waistband channel for a customised fit. The V-cut design with rubberised liner ensures you feel supported and comfortable, while anti-microbial technology keeps the jammer fresh swim after swim. Designed to be durable and better for the environment, it's made from our new ECO Endurance+ fabric which is 100% chlorine resistant, quick-drying and made from 50% recycled materials and has the added benefit of being finished with a water repellent and anti-microbial treatment.

Features

- Performance Waistband - silicone gripper elasticated waistband, designed for a comfortable, secure fit
- Flat Drawstring - sits within dedicated waistband channel for additional security and customised fit
- V-Cut Design - supportive cut with rubberised liner
- CO Water repellent treatment – environmentally friendly PFOA-free treatment encourages water to roll off the surface, and gives a drier feel after your swim
- Anti-microbial treatment with Sanitized® Freshness – inhibits bacterial growth, providing long-lasting freshness
- 100% Chlorine resistance - for long lasting performance
- 50% Recycled Content – one of the yarns is made from 100% post-consumer waste, such as recycled plastic bottles

Leg Length: 44cm
Fabric Description: ECO Endurance® + Pro
Fabric Composition: 53% Recycled Polyester 47% PBT WR & AM finish
Buys: 2, 3, 4, 5

Allover 7cm Brief
8-097399177 Black / USA Charcoal / White

Style: 838097399177
Price: \$ 419

NEW ECO ENDURAFLEX

Allover 7cm Brief

Train hard in eco-friendly fabrics. Look sharp as you sail through every stroke of training wearing our striking 7cm Brief, featuring an all-over monochrome 'glitch'-effect print, with solid black back. Perfect for sets and drills, the brief includes a drawstring waist for a comfy, secure fit and is lined at the front for comfort and modesty. Ideal for frequent training sessions, our ECO EnduraFlex fabric offers higher chlorine resistance than standard swimwear fabrics and fits like new for longer with CREORA® HighClo™. Yarns in the fabric are made from 100% recycled waste fabric, so it's better for the environment too.

Features

- Front liner - For comfort and modesty
- Drawstring waist - Provides an adjustable and more secure fit
- Higher chlorine resistance than standard swimwear fabrics - Fits like new for longer with CREORA® HighClo™
- Shape Retention - Fabric stretches allowing you to swim without feeling restricted
- Made from recycled waste fabric – Yarns in the fabric are made from 100% pre-consumer waste, such as waste fabric from factories

Printed Long Sleeve Rash Top
8-13217G732 Black / Pool / Blue Flame / Mercurial Blue

Style: 83813217G732
Price: \$ 499

Printed Long Sleeve Rash Top

Performance swimwear for the outdoors. Sleek and streamlined, the Long Sleeve Rash Top with blue splice print includes UPF40+ fabric sun protection for active beach days on the board or in the surf. Snug-fitting in a pull-on style, it features flatlocked seams for a comfortable fit against the body and includes a board short loop for a secure fit when connected to board shorts or leggings. Designed to be durable and better for the environment, the top is made from our new ECO Endurance+ fabric, which is 100% chlorine resistant, quick-drying and is made from 50% recycled materials.

Features

- Pull-on rash top - perfect for sun protection both in and out of the water
- Flatlocked seams - for a comfortable fit against the body
- Board short loop - connect to short or legging drawstring for extra secure fit
- Snug fit
- 100% chlorine resistance - for long lasting performance
- Quick dry - dries faster after your swim workout
- 50% recycled - one of the yarns is made from 100% post-consumer waste, such as recycled plastic bottles

Fabric Description: ECO Endurance® +
Fabric Composition: 53% Recycled Polyester / 47% PBT
Buys: 2, 3, 4, 5
Available Sizes: XXS, XS, S, M, L, XL, XXL
Sun Protection: UPF40+

ECO ENDURANCE⁺ PRO

- 100% Chlorine Resistant – for long lasting performance.
- 50% Recycled Content – one of the yarns is made from 100% post-consumer waste, such as recycled plastic bottles
- Get a drier feel after your swim with PFOA – free treatment, an environmentally friendly water repellent which encourages water to roll off the fabric surface
- Inhibit bacterial growth and experience long-lasting freshness with Anti-microbial Sanitized[®] treatment

ECO ENDURANCE⁺

100% chlorine resistance
For long lasting performance.

Quick dry
Dries faster after your swim workout.

50% Recycled
One of the yarns is made from 100% post-consumer waste, such as recycled plastic bottles.

ECO ENDURABRITE

- Higher chlorine resistance than standard swimwear fabrics – fits like new for longer with Creora highclo.
- High colour performance – enabling the use of fluo and bright colours.
- Made from recycled plastic bottles – the yarn in the fabric is made from 100% post-consumer waste, such as recycled plastic bottles.

ECO ENDURAFLEX

NEW Speedo Eco Enduraflex

Made from recycled waste fabric

Yarns in the fabric are made from 100% pre-consumer waste, such as waste fabric from factories.

Higher Chlorine Resistance

Than standard swimwear fabrics.

Shape retention

Fabric stretched so you can enjoy your swim without feeling restricted.

SPEEDO

Glossary of Fabrics

Swimwear

Eco Endurance+ Pro

- 100% Chlorine Resistant – for long lasting performance
- 50% Recycled Content – one of the yarns is made from 100% post-consumer waste, such as recycled plastic bottles
- Get a drier feel after your swim with PFOA – free treatment, an environmentally friendly water to roll off the fabric surface

Speedo Eco Enduraflex

- Made from recycled waste fabric
- Higher chlorine resistance than standard swimwear fabrics
- Shape retention – fabric stretched so you can enjoy your swim without feeling restricted

Endurance+

- 100% Chlorine resistant – For long lasting performance
- Quick dry – Dries faster after your swim workout

Endurance 10

- Higher chlorine resistant than standard swimwear fabrics – Fits like new for longer with CREORA HighClo
- Shape retention – Fabric stretches so you can enjoy your swim without feeling restricted.

Watershorts

100% Recycled Polyester – Xpress Lite ECO

- Made by recycling waste plastic such as plastic bottles, and other plastic products into a polyester fabric
- Water repellent finish – stays dry to the touch
- Lightweight fabric – So your shorts won't weigh you down.

100% Recycled Polyester – Peached Poly Eco

- Made by recycling waste plastic such as plastic bottles, and other plastic products into a polyester fabric
- Brushed finished for softer handfeel.

Eco Yam Dye

- Fabric is made from recycled plastic – the yarn in the fabric is made from 100% post-consumer waste, such as recycled plastic bottles.

100% Recycled Nylon

- Made from waste fabric from factories, that's collected up and transformed into a new nylon fibre
- Lightweight fabric.
